Target Audience

Camp-Codezilla welcomes students aged 15 and above from high schoolers and university learners to early-career professionals — who aspire to launch their journeys in software development. If you have curiosity and a desire to learn, this bootcamp is crafted for you, regardless of prior programming experience.

Admission Requirements

Laptop
Capable of running Visual Studio Code efficiently

Discord Account
For seamless communication & ongoing support throughout the course

Module 1: Programming Fundamentals with TypeScript

✓ **Duration:** September–October 2025

✓ **Format:** 12 sessions, 18 hours total

Schedules

✓ **Batch One:** Sat (11:30 AM–1:00 PM), Mon & Wed (6:30–8:00 PM)

✓ **Batch Two:** Tue, Thu, Fri (6:30–8:00 PM)

Tuition

✓ **Standard:** \$216 CAD

✓ **Early Bird:** \$195 CAD

Highlights

✓ **From zero experience to confident coder**

✓ **TypeScript:** The industry's preferred scalable language

✓ **Interactive foundation projects**

Module 1 Curriculum includes

- **Programming basics & TypeScript introduction**
- **Variables, data types, and syntax**
- **Conditionals and loops**
- **Functions**
- **Arrays, enums, and tuples**
- **Object-oriented programming**
- **Asynchronous programming**
- **Interfaces and type aliases**
- **Modular code organization**
- **Integration project and a real-world web application as a final project**

Module 2: Full-Stack Web Development (Frontend + Backend)

✓ **Duration:** October–December 2025

✓ **Format:** 39 sessions, 58.5 hours total

Schedule: Follows same batch times as Module 1

Tuition

✓ **Standard:** \$700 CAD

✓ **Early Bird:** \$595 CAD

✓ **Prerequisite:** Successful completion of Module 1

Highlights

✓ **Frontend and backend mastery using industry-leading tools**

✓ **Building, deploying, and integrating end-to-end applications**

✓ **Capstone and real-time collaborative projects**

Early Bird Discount: Eligible to

The first 15 enrollees per batch, OR Anyone registering within the first 2 days (starting August 9, 2025, in celebration of Muslim Fest Day)

Session Schedule (by Batch): Batch One

✓ **Saturday: 11:30 AM – 1:00 PM**

✓ **Monday & Wednesday: 6:30 PM – 8:00 PM**

Session Schedule (by Batch): Batch Two

✓ **Tuesday, Thursday, Friday: 6:30 PM – 8:00 PM**

Module 2 Curriculum covers

● **HTML & semantic markup**

● **Modern CSS & advanced styling with Tailwind CSS**

● **JavaScript and DOM manipulation essentials**

● **Interactive user interfaces with Solid.js**

● **Reactivity, state management, and route handling**

● **Backend development using Elysia.js**

● **API development, data validation, and middleware**

● **PostgreSQL databases with Prisma ORM**

● **Full-stack integration (Eden Treaty)**

● **Featured project: Real-time Ping Pong Game**

● **Capstone: Online Banking Web Application**

Why Choose Camp-Codezilla?

- ✓ **Truly Beginner-Friendly:** No experience required; we provide step-by-step guidance from the ground up
- ✓ **Real-World Projects:** Apply your knowledge in meaningful, practical projects that showcase your skills
- ✓ **Modern Tech Toolbox:** Gain firsthand experience with TypeScript, Solid.js, Tailwind CSS, Prisma, and more
- ✓ **Small Batches:** Each batch is capped at 25 students to ensure personalized attention
- ✓ **Affordable Excellence:** One of Canada's most accessible, value-driven bootcamps
- ✓ **Continuous Support:** Daily Q&A, Discord-based mentoring, and access to session recordings
- ✓ **Career Launchpad:** Graduate ready for freelance opportunities or junior developer roles

Instructor Profile

Rahat Bin Taleb
Instructor, Camp Codezilla

Rahat is a current Computer Science undergraduate at Carleton University with extensive experience in software engineering for 3 years. Ranked in the top 25% globally on LeetCode with an Expert standing on Codeforces, he has earned consistent academic honours and has successfully conducted programming camps for youth (aged 9-15) at The O.U.C. in Ottawa, earning outstanding reviews for both curriculum design and mentorship. Rahat is passionate about empowering new developers and is dedicated to providing a supportive, engaging learning environment.

Secure Your Future

Whether you aim to build a strong foundation, gain tangible programming experience, or take your first step towards a tech career, Camp-Codezilla is your launchpad. Complete the bootcamp, finish all assessments, and you'll be job-ready equipped to freelance or land a junior developer role.

Enrollment is limited to 25 students per batch.

Register early to secure your spot and take advantage of the Early Bird pricing!

Let's build the future together — one line of code at a time.
